Education

Vidyashilp Academy

Yelahanka, Bengaluru, India

Cambridge International A Levels; predicted grades: A*, A*, A*, A, A

Expected May 2027

- **Coursework:** Computer Science, Mathematics, Further Mathematics, Physics, and English Language
- **Cambridge IGCSE:** 4 A* grades, 3 A grades, and 1 B grade across Mathematics, Computer Science, Chemistry, Physics, Additional Mathematics, Economics, English Language, and Hindi
- **SAT:** 1490 total (780 Math, 710 Evidence-Based Reading and Writing); 99th percentile overall and in Math

Projects

StadiumPulse AI | React, Supabase, Gemini, Realtime, RLS

GitHub

- Built a simulation-first stadium-operations dashboard that turns venue telemetry into zone status, alerts, and actionable recommendations.

Audio Recognition | Python, Flask, FFmpeg, fingerprinting

GitHub

- Built a song-identification system from microphone input or uploads using normalized audio, FFT fingerprinting, and spectrogram hashing.

Movie and TV Tracker | Flask, PostgreSQL, Supabase, TMDB API

GitHub

- Developed a full-stack watchlist application with PostgreSQL schema design, Supabase authentication, TMDB integration, and rich title metadata.

CAIE Past Paper AI | Python, Gemini, PDF parsing, Flask

GitHub

- Built a Cambridge A-Level study tool that extracts questions, supports topic practice, and provides mark-scheme-aware AI feedback.

Student Dropout Risk Prediction | Data analysis, Excel, structured datasets

IIT Madras

- Completed a student-dropout risk prediction project using a report, template workbook, sample data, and an updated dataset.

Face Attendance System | Python, OpenCV, Flask, face_recognition

GitHub

- Created a local-first webcam workflow with enrollment, live recognition, attendance deduplication, and CSV reporting.

F1 Championship Prediction | Python, scikit-learn, pandas, matplotlib

GitHub

- Built a leakage-safe forecasting study with rolling-origin evaluation and reproducible reports for Formula 1 championship outcomes.

Token Smart Router | React, Express, Docker, Fireworks AI

GitHub

- Built a transparent routing layer that answers simple prompts locally and sends genuinely complex requests to a configured hosted model.

Experience

Infinitea, Kitchen and Tea Room

Bengaluru, India

Data Analytics Intern

Apr 2025; 3 weeks

- Analyzed customer-ordering data and weekly sales reports to identify peak hours and best-selling items.
- Linked observed sales patterns to inventory-management and stock-planning decisions.

Vivek Agro

Bengaluru, India

Graphic Design and Market Research Intern

Apr 2024; 4 weeks; Hybrid

- Designed marketing materials for whole-wheat and grain products using Canva and Adobe Photoshop.
- Researched grain types, target customers, and competitor products to support marketing decisions.

National Sports Club of India (NSCI)

Mumbai, India

Mentor and Organiser – Art Workshop

May 2025; 2 days

- Coordinated participant materials and group activities; guided students through creative exercises connecting visual communication with professional presentation.

Leadership and Community Service

Vidyashilp Academy Mathematics Club

Bengaluru, India

President and Co-founder

Jun 2025–Present

- Grew the club from 3 to 20+ active members and delivered sessions on number theory, complex vectors, and combinatorics.
- Coordinated IOQM and AMC preparation using past papers and curated problem sets.

- Managed finances across 9 school events with INR 8.46L in revenue and INR 2.37L in net surplus.
- Allocated funds across three councils and oversaw an INR 2.24L disbursement pool.

Community Service

School Community Initiatives

Bengaluru, India

Tutor and Community Volunteer

Jun 2024–Mar 2025

- Tutored 5–8 government-school students weekly in mathematics and science, contributing 20+ volunteer hours.
- Participated in a lake clean-up and helped organize a blood-donation drive for school support staff.

Children's Home

Bengaluru, India

Family-led community initiative

2017–2020

- Organized monthly visits and provided books and educational materials to 20+ children.

Awards and Competitions

- **IYMC and Mathematics:** IYMC Silver Prize and Outstanding Submission recognition; third-highest score in school on AMC 12; Logiquids finalist; participation in IOQM, IPHC, and ICSC, 2023–Present.
- **Climate Science Olympiad:** 2024 finalist in the top 100 worldwide and 2023 semi-finalist in the top 2,000, 2023–2024.
- **MIT Engineers Without Borders:** Placed in the top two students in school; team Honor Award and individual Merit Award, Mar 2026.
- **National Finance Olympiad:** Placed in the top 500 nationally across qualifying and final rounds in finance and quantitative reasoning, Feb 2026.
- **World Scholars Cup:** 12 medals and Gold Qualifier for the Yale Tournament of Champions, Oct 2023.
- **Immerse Education:** Received a partial scholarship through international essay selection, Dec 2025.
- **Investment and Startup:** Conducted equity research and company valuations for the Wharton competition; co-designed a runner-up startup team entry at the Masters' Union interschool competition.

Technical Skills

- **Programming and Data:** Python, JavaScript, R, Java, SQL, HTML, CSS, pandas, scikit-learn, and Jupyter
- **Frameworks and Libraries:** React, Vite, Flask, Express, Streamlit, Framer Motion, matplotlib, OpenCV, TensorFlow, and SciPy
- **Databases and AI:** PostgreSQL, Supabase, Gemini, Fireworks AI, TMDB API, and applied machine learning
- **Tools and Platforms:** Git, GitHub, Docker, GitHub Actions, Vercel, Kaggle, Excel, Google Sheets, Canva, and Adobe Photoshop
- **Languages and Strengths:** English and Hindi (fluent); German (beginner); analytical problem-solving, research, critical analysis, leadership, public speaking, and debate

Certifications

- **IYMC Silver, Pre-Final and Qualification** – 2025–2026
- **National Finance Olympiad** – 2025–2026
- **Immerse Education Essay Scholarship** – 2025
- **Internship Certificate** – Vivek Agro, 2025
- **Electronic Systems** – IIT Madras, 2026
- **30 Days of AI** – Google, 2025
- **AI Fluency** – Anthropic, 2025
- **Data Analysis and Web Development** – freeCodeCamp, 2025
- **MIT Engineers Without Borders** – Team and Individual, 2026
- **Wharton Investment Competition** – 2025
- **Junior MBA in Technology** – Clever Harvey, 2025
- **Data Science Certificate** – IIT Madras, 2025
- **John Locke Institute Scholarship** – John Locke Institute
- **Claude Code in Action** – Anthropic, 2025
- **Amazon Data Analysis and Future Careers** – Springpod UCAS, 2025
- **Web Development Bootcamp** – Udemy, 2025
