Education

Vidyashilp Academy Yelahanka, Bengaluru, India

Cambridge International A Levels *Expected May 2027*

- **Predicted grades**: A* in Mathematics, Further Mathematics, Physics, and Computer Science.
- **AS Level results**: Mathematics A (99), Further Mathematics A (93), Physics A (89), Computer Science A (88).
- **Coursework**: Computer Science, Mathematics, Further Mathematics, Physics, and English Language.
- **Cambridge IGCSE**: 4 A* grades, 3 A grades, and 1 B grade across 8 subjects.
- **SAT**: 1490 total (780 Math, 710 Reading and Writing); 99th percentile overall and in Math among College Board's nationally representative U.S. comparison group.

Projects

Multiclass Imbalance Benchmark | *Python, pandas, scikit-learn* GitHub

- Preregistered comparison of resampling methods across 11 public tabular datasets and 3 classifiers, using stratified five-fold cross-validation over three seeds and fold-local preprocessing.
- Found no universally best sampler; effects varied by dataset, classifier, and feature type. TMLR-formatted manuscript draft, not submitted.

F1 Championship Forecasting | *Python, scikit-learn, pandas* GitHub

- Ran leakage-safe full-season walk-forward backtests across 10 untouched test seasons (2016-2025), comparing the previous-season order baseline with Random Forest and Gradient Boosting.
- The simple baseline led overall (mean RMSE 3.728; Spearman 0.821) versus RMSE 5.982 for Random Forest and 6.302 for Gradient Boosting.

E-commerce Customer Analytics | *Python, SQLite, pandas* GitHub

- Built a reproducible local-first Olist pipeline, preserving raw tables and validating analytical views.
- Analyzed revenue reconciliation, delivery, RFM segments, and customer cohorts across 96,470 delivered orders in the documented snapshot.

RiskCourt | *Python, Alpaca, options risk* GitHub

- Built an Alpaca paper-trading options agent with calibrated forecasts and defined-risk spread selection; enforced deterministic risk gates before paper orders.

CAIE Past Paper AI | *Python, Gemini, PDF parsing, Flask* GitHub

- Built a Cambridge A-Level study tool that extracts questions, supports topic practice, and provides mark-scheme-aware AI feedback.

Hackathon Projects | *Python, React, TypeScript* GitHub

- Proofline for IBM Bob 2.0; PolicyLens for HackSocial 2026; IceCold Sprint for Native.builder.

Other Selected Projects | *Python, React, data, audio* GitHub

- StadiumPulse; Touchscreen Launchpad; Audio Recognition; Token Smart Router; Movie and TV Tracker; Face Attendance; Student Dropout Risk Prediction (IIT Madras); NextSound; Car Price Predictor.

Open-Source Contributions | *Python, TypeScript, docs and tests* GitHub

- Six merged PRs across Hono, PaperLocale, and Microsoft HVE Core: Hono function components may return nodes directly, PR 5476; PaperLocale ecology paper pack, PR 37, and two-page PDF QA, PR 4; three HVE Core documentation fixes, PRs 2741, 2774, and 2789.

Experience

Infinitea, Kitchen and Tea Room Bengaluru, India

Data Analytics Intern *Apr 2025; 3 weeks*

- Analyzed customer-ordering data and weekly sales reports to identify peak hours and best-selling items.
- Linked observed sales patterns to inventory-management and stock-planning decisions.

Vivek Agro Bengaluru, India

Graphic Design and Market Research Intern *Apr 2024; 4 weeks; Hybrid*

- Designed marketing materials for whole-wheat and grain products using Canva and Adobe Photoshop.
- Researched grain types, target customers, and competitor products to support marketing decisions.

National Sports Club of India (NSCI) Mumbai, India

Mentor and Organiser - Art Workshop *May 2025; 2 days*

- Coordinated participant materials and group activities; guided students through creative exercises connecting visual communication with professional presentation.

Leadership

Vidyashilp Academy Mathematics Club Bengaluru, India

President and Co-founder *Jun 2025-Present*

- Grew the club from 3 to 20+ active members and delivered sessions on number theory, complex vectors, and combinatorics.
- Coordinated IOQM and AMC preparation using past papers and curated problem sets.

Vidyashilp Academy Student Government Bengaluru, India

Treasurer *Academic Year 2025-2026*

- Managed finances across 9 school events with INR 8.46L in revenue and INR 2.37L in net surplus.
- Allocated funds across three councils and oversaw an INR 2.24L disbursement pool.

Community Service

School Community Initiatives Bengaluru, India

Tutor and Community Volunteer *Jun 2024-Mar 2025*

- Tutored 5-8 government-school students weekly in mathematics and science; participated in a lake clean-up and helped organize a blood-donation drive for school support staff.
- 100 volunteer hours total across service activities; 20+ tutoring hours.

Children's Home Bengaluru, India

Family-led community initiative *2017-2020*

- Organized monthly visits and provided books and educational materials to 20+ children.

Awards and Competitions

- **IYMC and Mathematics**: IYMC Silver Prize and Outstanding Submission; third-highest AMC 12 school score; Logiquids finalist; participated in IOQM, IPHC, and ICSC (2023-Present).
- **ClimateScience Olympiad**: 2024 finalist (top 100 worldwide); 2023 semifinalist (top 2,000).
- **MIT Engineers Without Borders**: Placed among the school's top two students in the EWB challenge; team Honor Award and individual Merit Award (Mar 2026).
- **National Finance Olympiad**: Top 500 nationally in finance and quantitative reasoning (Feb 2026).
- **World Scholar's Cup**: 12+ medals; Bangkok Global Round; Gold qualifier for Yale Tournament of Champions; 10+ debate, MUN, moot-court, and Verbattle events.
- **AI Challenge (AIIJC)**: Main-stage participant; developed five ML solutions in rent, order cancellation, movie genres, VK complaint classification, and floor-plan area extraction.
- **Scholarships**: Immerse Education partial scholarship (Dec 2025); John Locke Institute scholarship.
- **Wharton and startup**: Wharton Global High School Investment Competition (Oct 2024, Oct 2025): equity research and company valuations; Masters' Union team runner-up (Sep 2024).

Hackathons

- AMD Developer Hackathon ACT II; Alpaca AI Trading Agents Hackathon (RiskCourt); IBM Bob 2.0 Hackathon (Proofline); HackSocial 2026 (PolicyLens); AI Factory Native.builder Hackathon (IceCold Sprint).

Technical Skills

- **Programming and Data**: Python, JavaScript, R, Java, SQL, HTML, CSS, pandas, scikit-learn, and Jupyter.
- **Frameworks and Libraries**: React, Vite, Flask, Express, Streamlit, Framer Motion, matplotlib, OpenCV, TensorFlow, and SciPy.
- **Databases and AI**: PostgreSQL, Supabase, Gemini, Fireworks AI, TMDB API, and applied machine learning.
- **Tools and Platforms**: Git, GitHub, Docker, GitHub Actions, Vercel, Kaggle, Excel, Google Sheets, Canva, and Adobe Photoshop.
- **Languages and Strengths**: English and Hindi (fluent); German (beginner); analytical problem-solving, research, critical analysis, leadership, public speaking, and debate.

Selected Programs and Certificates

- Junior MBA in Technology - Clever Harvey, 2025
- Internship Certificate - Vivek Agro, 2025
- Data Science Certificate - IIT Madras, 2025
- Electronic Systems - IIT Madras, 2026
- DataCamp Introduction to Java and R, 2025
- 30 Days of AI - Google, 2025
- ClimateScience Industrial Innovation - 2024
- Claude Code in Action - Anthropic, 2025
- AI Fluency - Anthropic, 2025
- Amazon Data Analysis and Future Careers - Springpod UCAS, 2025
- Symbiosis Summer School, 2025
- Data Analysis and Web Development - freeCodeCamp, 2025
- Web Development Bootcamp - Udemy, 2025
- Springpod Data Science and AI Virtual Experience - Leeds Beckett, 2026
